NEW ... PUNCHED CARD AND COMPUTER HANDBOOKS

for SPECIFIC INDUSTRIES and SPECIFIC APPLICATIONS

Dear Subscriber:

Your industry has many needs and problems that are unlike those in any other field. Your applications of data processing systems are unique and differ from those in other industries. You need information related directly to your type of business or organization.

The new data processing INDUSTRY HANDBOOKS give you the selective information you need to maintain the most effective punched card and business computer operations. Most industries are covered by the eight handbooks now offered -- others are in preparation.

Also, there are undoubtedly some applications in your organization that are more important than others. You can now obtain information on these specific applications or subjects in the new APPLICATION HANDBOOKS.

The inside pages describe these new handbooks in detail. You may examine as many of these handbooks as you wish FREE for 30 days without obligation.

A supply of these handbooks has been reserved for subscribers to our other publications. Since only a limited quantity is being printed, we urge you to order now before the public announcement is made. A postage-free reply card is enclosed.

Very truly yours,

George G. Wells

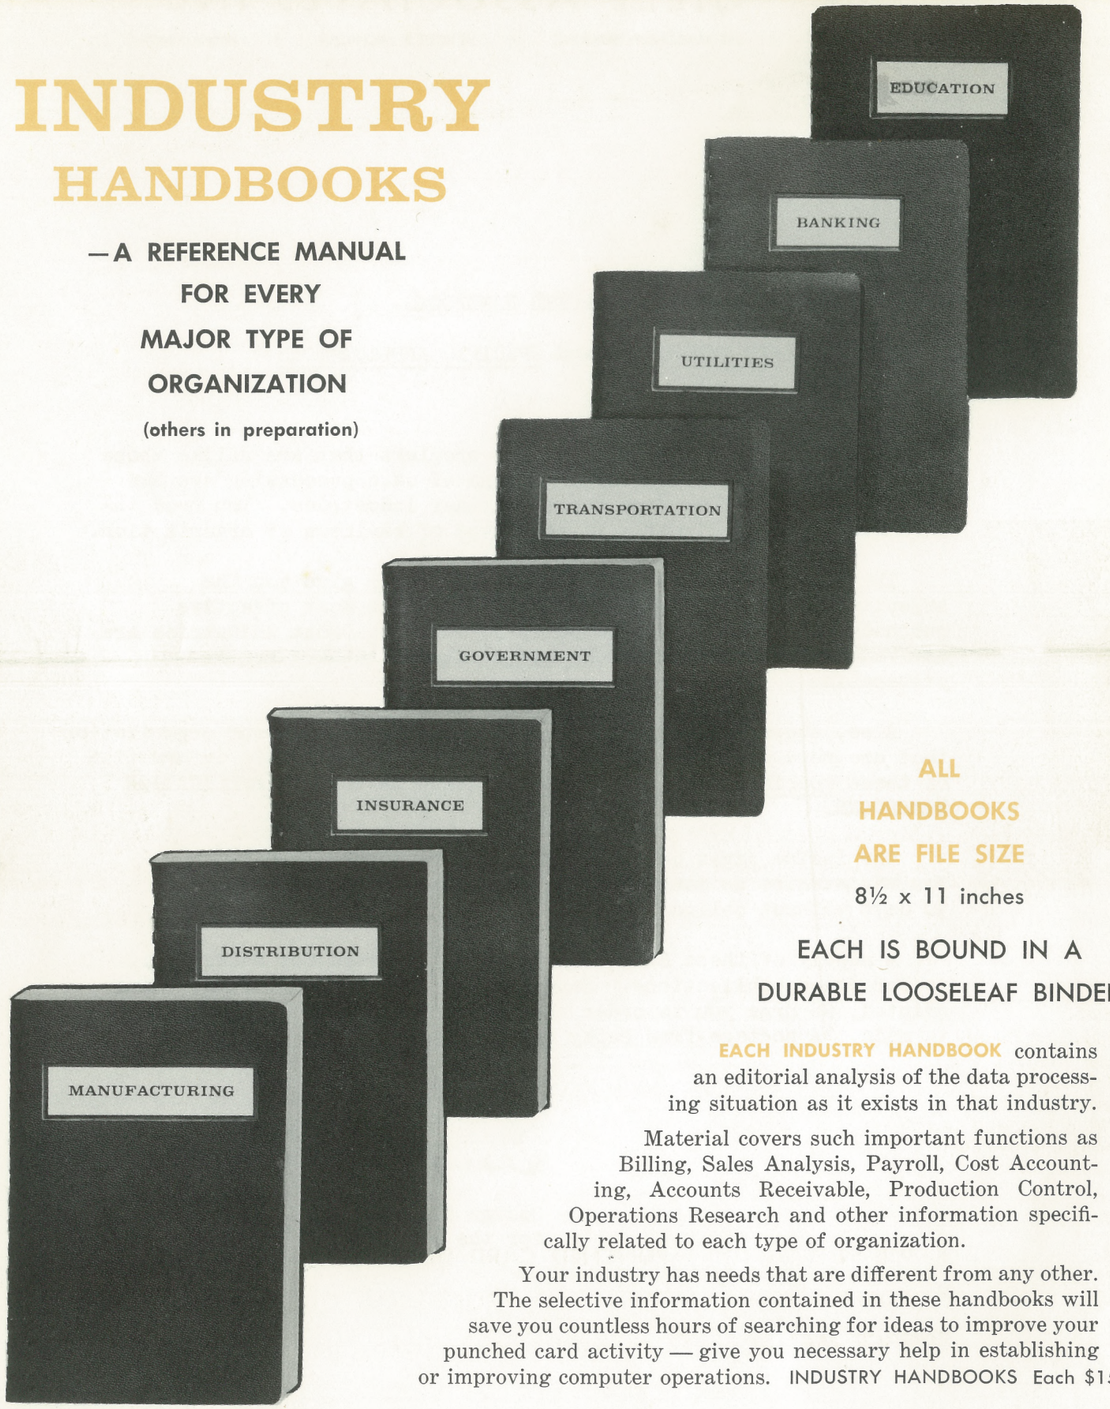
NOW . . . a COMPLETE REFERENCE LIBRARY ON PUNCHED CARD AND COMPUTER DATA PROCESSING

INDUSTRY HANDBOOKS

—A REFERENCE MANUAL FOR EVERY MAJOR TYPE OF ORGANIZATION

(others in preparation)



ALL HANDBOOKS ARE FILE SIZE

8½ x 11 inches

EACH IS BOUND IN A DURABLE LOOSELEAF BINDER

EACH INDUSTRY HANDBOOK contains an editorial analysis of the data processing situation as it exists in that industry.

Material covers such important functions as Billing, Sales Analysis, Payroll, Cost Accounting, Accounts Receivable, Production Control, Operations Research and other information specifically related to each type of organization.

Your industry has needs that are different from any other. The selective information contained in these handbooks will save you countless hours of searching for ideas to improve your punched card activity — give you necessary help in establishing or improving computer operations. INDUSTRY HANDBOOKS Each $15.00

APPLICATIONS HANDBOOKS

APPLICATION HANDBOOKS give you a reference source for every important data processing subject. There are case histories on successful applications of punched card, punched tape and computer equipment related to a wide variety of different types of organizations — but with universal interest and appeal.

Cumulatively these handbooks give you an almost limitless source for ideas. They permit you to review each of your major uses of data processing equipment and compare them with methods employed by others.

Never before has such a useful library of information been available for use right in your office. APPLICATIONS HANDBOOKS Each $10.00
